

MONTHLY NEW PRODUCT

[More News](#)

MJ Gasket always delivers high-quality engine gaskets, seals, and related parts.

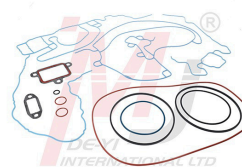

The gasket kit introduced this time is designed for the International DT466 inline six-cylinder turbo diesel engine, which is widely used in various medium-duty vehicles. It is commonly found in buses, box trucks (especially moving trucks), and some heavy-duty trucks. The Navistar DT engine series includes six medium-duty diesel engines with horsepower ranging from 130KW/170hp to 260KW/350hp. These engines are extensively used in medium and heavy-duty vehicles such as trucks, school buses, and other buses. The DT466 engine is renowned within the DT engine series for its exceptional durability and performance.
